

TA QUANG TUNG

Phone: +84 398463203

Date of Birth: 06/03/2003

Email: taquangtung2003@gmail.com

Website: <https://taquangtung.streamlit.app/>

PROFESSIONAL SUMMARY

As a developer:

- Over 3 years working experience in software development on Python Developer
- Developed and implemented all assigned features as the responsible developer
- Created common Python utility modules and shared libraries for the project
- Experienced in building real-time Web/App systems integrating AI/ML, Automotive, and Data Visualization, ETL
- Have a lot time working in project uses change management tools as Jira, Github, Gitea, Bitbucket, Trello
- Solve hard tasks: Optimize performance – using Multi Thread, Optimize Data Usage, Crash issues – Core-dump files
- Deploy the Web/App by Docker and AWS

As a team leader/teacher:

- Onboard and mentor new team members on project standards, coding guidelines, and technical workflows
- Contact manager directly for information/specification
- Review all source code from my members to make sure no side-effect and suggest the solution to solve the problem
- Developed training materials and delivered technical instruction

TECHNICAL EXPERTISE

Backend Languages	Python, Cython, Java, R
Frontend Languages	HTML, CSS/SCSS, JavaScript, TypeScript, VueJS, Bootstrap
Document Languages	Markdown, Latex
Platforms	Anaconda, Postman, Qt Creator, Figma
IDE/Utilities	Visual Studio Code, Visual Studio Code Insider, Visual Studio, Pycharm, IntelliJ IDEA, RStudio
Frameworks/Libraries	Flask, Django, FastAPI, Streamlit, Tkinter, PyQt/PySide, Pyramid, Frappe
Operating Systems	Linux, Window
Databases	PL/SQL, SQLite, MySQL, Postgresql, Dbeaver, Oracle, Kudu
Deployments	Docker, AWS, Render, Pythonanywhere, Streamlit Cloud
Foreign Languages	English (Upper Intermediate – VSTEP B2)

EDUCATION

09/2021 - 07/2025	Hanoi University of Science, Vietnam National University (VNU) <i>Bachelor's Degree in Mathematics and Computer Science</i> • CPA: 3.43/4.00 • VSTEP English: B2
10/2025 - Now	Vietnam National University (VNU) <i>Master's Degree in Data Science</i>

PROFESSIONAL EXPERIENCE

12/2022 – 02/2023	• Company: Smartlog • Position: Python Developer • Tools: Pycharm, MySQL • Activities: ○ Developed AI-based Web and App systems for transportation optimization ○ Oversee the development and maintenance of routine strategic optimization algorithms
05/2024 – 09/2024	• Company: Rikkeisoft • Position: Python Developer • Tools: Visual Studio Code, Visual Studio Code Insider, Pycharm, Dbeaver, Postman • Activities: ○ Developed and constructed a Digital Library Management System ○ Collaborated on an automotive management system backend and API testing in Postman
12/2024 – 07/2026	• Company: GTSystem Vietnam • Position: Python Developer • Tools: Visual Studio Code, Visual Studio/Linux, Qt Creator, Figma • Activities: ○ Built GUI interface and designed CANoe device simulation software using PyQt/PySide ○ Emulate an ECU device and simulates fault diagnostics via CAN/UDS protocols
07/2026 – Nay	• Company: Rikkeisoft x SamSung SDS • Position: Python Developer • Tools: Visual Studio Code, Pycharm, DBeaver • Activities: ○ Design and Transform Supply Chain Data Across Different System Versions ○ Analyzed, optimized, and processed large-scale supply chain data

TECHNICAL EXPERIENCE

- 1. Document Management Web/App in BookStore with Virtual Assistant: (Python Developer)**
 - **Description:** Document and project management system for a bookstore with virtual assistant support
 - **Technologies:** Python, Django, FastAPI, Tkinter, Streamlit, SQLite, MySQL
- 2. Blog and Social Information Management System: (Python Developer)**
 - **Description:** Social Media System (SMS) for aggregating social data and generating statistical blog reports
 - **Technologies:** Python, Flask, FastAPI, VueJS, SCSS, JavaScript, SQLite
- 3. Leave Hub Attendance System with HRMS Time Checking: (Python Developer)**
 - **Description:** A Web-Based System for Managing Employee Attendance and Time Checking Request
 - **Technologies:** Python, FastAPI, Frappe, CSS, JS/TS, SQLite, Postgresql
- 4. Multilingual Zoom Meeting Minutes Extraction and Summarization System: (Python Developer)**
 - **Description:** An automated system designed to process Zoom meeting recordings (audio/video)
 - **Technologies:** Python, FastAPI, VueJS, Linux, Postgresql
- 5. SmartBanking Credit Risk & Fraud Monitoring System: (Python Developer)**
 - **Description:** Banking analytics system for credit risk assessment and fraud monitoring
 - **Technologies:** Python, Cython, Streamlit, SQLite
- 6. Automotive Testing Tool of CANoe for Linux Device: (Python Developer)**
 - **Description:** Automotive testing tool developed for Linux-based devices to support CANoe testing workflows
 - **Technologies:** Python, PyQT, Linux, SQLite
- 7. Next Supply Chain Management of NSCM: (Python Developer)**
 - **Description:** Large-Scale Data Analysis and Processing System of NSCM
 - **Technologies:** Python, PL/SQL, Pandas, Polars, Oracle, Kudu

AWARDS & ACHIEVEMENTS

- **Consolation Prize:** Mathematics Olympiad, 2020
- **Second Prize:** Student Scientific Conference (Faculty of Mathematics - Mechanics - Informatics, 2025)
- **Third Prize:** University-level Student Scientific Conference (VNU University of Science, 2025)
- **Competition:** Talent Showcase Team of the “Data Science FTU” Competition
